

K-LOVE acts as a service to the local community in broadcasting events for non-profit organizations and opportunites to serve the local community not heard on other FM stations.

The effects of this station to reach out with messages of hope while encouraging service to our community in invaluable. The positive nature of their broadcast has encouraged the youth that I work with, and the neighborhoods in the greater Phoenix, AZ area.

This of course is in the best interest of the public. People wanting to serve their fellow man and be a resource for each other makes us more united and bonds us together for good and bad times.

I sincerely hope that stations like K-LOVE can be available to every city around the country.
